Q8 Holbein NWG 32

Application

- Hydraulic systems used in environmental sensitive area's for which biodegradable fluids are recommended who do not endanger aquatic life (NWG).

Specifications

- ISO 11158 category HV (except oxidation stability D 943)
- DIN 51524, Part 3, category HVLP (except oxidation stability D 943)
- Draft DIN specification for HEES type fluids
- ISO 15380, HEES type
- SS 155434 (Swedish Standard), category BV Environmentally acceptable
- Nicht Wasser Gefährdend (Water hazard class: Not dangerous to aquatic species)
- Bosch Rexroth (HEES type)

Benefits

- Mineral oil free special additives
- Wide application temperature range due to low pour point and high viscosity index
- Compatible with mineral and rapeseed oils
- Extended drain intervals due to high oxidation stability
