Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 453/2010 - Belgium

# SAFETY DATA SHEET

Chain Oil FG 150

1/11

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier     |                                 |
|----------------------------|---------------------------------|
| Product name               | : Chain Oil FG 150              |
| Viscosity or Type          | : ISO VG 150                    |
| Material uses              | : Lubricating oil for chainsaws |
| <b>Product description</b> | : Not available.                |
|                            |                                 |

**1.2 Relevant identified uses of the substance or mixture and uses advised against** Not applicable.

### 1.3 Details of the supplier of the safety data sheet

| Manufacturer / Distributor                        | : Kuwait Petroleum Companies in the Benelux<br>Company Office: Brusselstraat 59, B-2018, Antwerp<br>Contactaddress: Petroleumkaai 7, B-2020, Antwerp<br>Tel. +32 3 247 38 11, Fax +32 3 216 03 42 |
|---|---|
| e-mail address of person responsible for this SDS | : SDSinfo@Q8.com, communication preferably in English only.   |

### **1.4 Emergency telephone number**

| Europe                | : +44 (0) 1235 239 670 | CARECHEM24       |
|-----------------------|------------------------|------------------|
| Global (English only) | : +44 (0) 1865 407 333 | Sound Line State |

## **SECTION 2: Hazards identification**

| 2.1 Classification of the sub                  | stance or mixture  |
|--|--|
| Product definition                             | : Mixture  |
| Classification according to<br>Not classified. | • Regulation (EC) No. 1272/2008 [CLP/GHS]                            |
| Ingredients of unknown<br>toxicity             | : None.  |
| Ingredients of unknown<br>ecotoxicity          | : None.  |
| <b>Classification according to</b>             | Directive 1999/45/EC [DPD]   |
| The product is not classified                  | d as dangerous according to Directive 1999/45/EC and its amendments. |
| Classification                                 | : Not classified.  |
| See Section 16 for the full te                 | xt of the R phrases or H statements declared above.                  |
| See Section 11 for more det                    | ailed information on health effects and symptoms.                    |
| 2.2 Label elements                             |  |

| Hazard pictograms        | :  |
|--------------------------|--|
| Signal word              | : No signal word.  |
| Hazard statements        | : No known significant effects or critical hazards.  |
| Precautionary statements |  |
| General                  | <ul> <li>P103 - Read label before use.</li> <li>P102 - Keep out of reach of children.</li> <li>P101 - If medical advice is needed, have product container or label at hand.</li> </ul> |

| Date of issue/Date of revision         : 9-11-2012         Date of previous issue         : 09-11-2012         Version         : 1.0 |

### Chain Oil FG 150

| Prevention  | 1  | Not applicable.  |
|---|----|--|
| Response  | 1  | Not applicable.  |
| Storage   | :  | Not applicable.  |
| Disposal  | :  | Not applicable.  |
| Supplemental label<br>elements                                | 1  | Contains Calcium sulphonate. May produce an allergic reaction. Safety Data Sheet available for professional user on request. |
| Special packaging requirem                                    | en | <u>ts</u>  |
| Containers to be fitted<br>with child-resistant<br>fastenings | :  | Not applicable.  |
| Tactile warning of danger                                     | :  | Not applicable.  |
| 2.3 Other hazards   |    |  |
| Other hazards which do not result in classification           | :  | Defatting to the skin.   |
|   |    |  |

## **SECTION 3: Composition/information on ingredients**

| Substance/mixture                             | : Mixture  |      |                 |  |      |
|---|--|------|-----------------|--|------|
|   |  |      | <u>Cla</u>      | ssification                            |      |
| Product/ingredient<br>name                    | Identifiers  | %    | 67/548/EEC      | Regulation (EC) No.<br>1272/2008 [CLP] | Туре |
| Extracts (petroleum),<br>residual oil solvent | REACH #:<br>01-2119488175-30<br>EC: 265-110-5<br>CAS: 64742-10-5 | >=90 | Not classified. | Not classified.                        | [2]  |
| mineral oil                                   | -  | >=90 | Not classified. | Not classified.                        | [2]  |

The mineral oils in the product contain < 3% DMSO extract (IP 346).

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4: First aid measures

| 4.1 Description of first aid m | neasures   |
|--------------------------------|--|
| Eye contact                    | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10<br/>minutes. Get medical attention if irritation occurs.</li> </ul> |
| Inhalation                     | <ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br/>Get medical attention if symptoms occur.</li> </ul>  |
| Skin contact                   | : Wash skin thoroughly with soap and water or use recognized skin cleanser. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.   |
| Ingestion                      | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.                           |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training.   |

4.2 Most important symptoms and effects, both acute and delayed <u>Potential acute health effects</u>

| Date of issue/Date of revision         : 9-11-2012         Date of previous issue         : 09-11-2012         Version | n | 1 | 1.01 | 2 | /11 |
|--|---|---|------|---|-----|
|--|---|---|------|---|-----|

## **SECTION 4: First aid measures**

| SECTION 4. FIISL          | aiu iiieasuies  |
|---------------------------|---|
| Eye contact               | : No known significant effects or critical hazards.   |
| Inhalation                | : No known significant effects or critical hazards.   |
| Skin contact              | : Defatting to the skin. May cause skin dryness and irritation.   |
| Ingestion                 | : No known significant effects or critical hazards.   |
| Over-exposure signs/sy    | <u>imptoms</u>  |
| Eye contact               | : No specific data.   |
| Inhalation                | : No specific data.   |
| Skin contact              | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking  |
| Ingestion                 | : No specific data.   |
| 4.3 Indication of any imm | ediate medical attention and special treatment needed   |
| Notes to physician        | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| · · · · · ·               |   |

**Specific treatments** : No specific treatment.

## **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media                           |   |
|---|---|
| Suitable extinguishing media                      | : Use dry chemical, CO <sub>2</sub> , alcohol-resistant foam or water spray (fog).  |
| Unsuitable extinguishing media                    | : Do not use water jet.   |
| 5.2 Special hazards arising f                     | rom the substance or mixture  |
| Hazards from the substance or mixture             | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products          | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>sulfur oxides   |
| 5.3 Advice for firefighters                       |   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro  | ective equipment and emergency procedures  |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment. |
| For emergency responders       | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section 8 for additional information on hygiene measures.  |

## **SECTION 6: Accidental release measures**

| 6.2 Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |  |  |  |
|---------------------------------|--|--|--|--|
| 6.3 Methods and material        | s for containment and cleaning up  |  |  |  |
| Small spill                     | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |  |  |  |
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |  |  |  |
| 6.4 Reference to other sections | <ul> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See Section 13 for additional waste treatment information.</li> </ul>  |  |  |  |

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 7.1 Precautions for safe handling

| Protective measures<br>Advice on general<br>occupational hygiene | <ul> <li>Put on appropriate personal protective equipment (see Section 8).</li> <li>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.</li> </ul> |
|--|--|
|  | nygione medearee.  |

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### 7.3 Specific end use(s)

Recommendations Industrial sector specific solutions

- : Not available.
- ic : Not available.

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 8.1 Control parameters

### **Occupational exposure limits**

| Product/ingredient name                    | Exposure limit values                        |
|--|--|
| Extracts (petroleum), residual oil solvent | EU OEL (Europe).<br>twa: 5 mg/m³, (oil Mist) |
| mineral oil                                | EU OEL (Europe).<br>TWA: 5 mg/m³, (oil Mist) |

## **SECTION 8: Exposure controls/personal protection**

| Recommended monitoring<br>procedures     |           | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to monitoring standards, such as<br>the following: European Standard EN 689 (Workplace atmospheres - Guidance for<br>the assessment of exposure by inhalation to chemical agents for comparison with<br>limit values and measurement strategy) European Standard EN 14042 (Workplace<br>atmospheres - Guide for the application and use of procedures for the assessment of<br>exposure to chemical and biological agents) European Standard EN 482<br>(Workplace atmospheres - General requirements for the performance of procedures<br>for the measurement of chemical agents) Reference to national guidance<br>documents for methods for the determination of hazardous substances will also be<br>required. |
|--|-----------|--|
| DNELs/DMELs<br>No DNELs/DMELs available. |           |  |
| PNECs                                    |           |  |
| No PNECs available.                      |           |  |
| 8.2 Exposure controls                    |           |  |
| Appropriate engineering<br>controls      | :         | No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.  |
| Individual protection measure            | <u>es</u> |  |
| Hygiene measures                         | :         | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location.  |
| Eye/face protection                      | :         | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection                          |           |  |
| Hand protection                          | :         | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Wear suitable gloves tested to EN374. Recommended: Nitrile<br>gloves.  |
| Body protection                          | :         | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.  |
| Other skin protection                    | :         | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection                   | :         | Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: Boiling point > 65 °C: A1; Boiling point < 65 °C: AX1; Hot material: A1P2.  |
| Environmental exposure controls          | :         | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |

## **SECTION 9: Physical and chemical properties**

| 3   |   | · · ·   |  |  |  |  |

|   |   |   |  |  |  |  |

### 9.2 Other information

No additional information.

## **SECTION 10: Stability and reactivity**

| 10.1 Reactivity                            | : | No specific test data related to reactivity available for this product or its ingredients.           |
|--|---|--|
| 10.2 Chemical stability                    | : | The product is stable.   |
| 10.3 Possibility of<br>hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| 10.4 Conditions to avoid                   | : | No specific data.  |
| 10.5 Incompatible materials                | : | Reactive or incompatible with the following materials:<br>Strong oxidizing materials                 |
| 10.6 Hazardous<br>decomposition products   | : | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

### **Acute toxicity**

| Product/ingredient name                       | Result                          | Species                  | Dose        | Exposure |
|---|---------------------------------|--------------------------|-------------|----------|
| Extracts (petroleum),<br>residual oil solvent | LC50 Inhalation Dusts and mists | Rat - Male,<br>Female    | >5 mg/l     | 4 hours  |
|   | LD50 Dermal                     | Rabbit - Male,<br>Female | >3000 mg/kg | -        |
|   | LD50 Oral                       | Rat - Male,<br>Female    | >5000 mg/kg | -        |

#### **Conclusion/Summary** : Not available.

### Acute toxicity estimates

Not available.

### **Irritation/Corrosion**

| Product/ingredient name                    | Result                                | Species | Score | Exposure | Observation |
|--|---------------------------------------|---------|-------|----------|-------------|
| Extracts (petroleum), residual oil solvent | Skin - Edema                          | Rabbit  | 2.5   | 24 hours | 72 hours    |
|  | Eyes - Redness of the<br>conjunctivae | Rabbit  | 0.44  | -        | 7 days      |

#### **Conclusion/Summary** : Not available.

### **Sensitization**

| Product/ingredient name                       | Route of exposure | Species    | Result          |
|---|-------------------|------------|-----------------|
| Extracts (petroleum),<br>residual oil solvent | skin              | Guinea pig | Not sensitizing |

#### Conclusion/Summary : Not available.

### **Mutagenicity**

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### **13.1 Waste treatment methods**

| <u>Product</u>      |   |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste product residues should not be disposed of via the sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
| Hazardous waste     | : Yes.  |

### European waste catalogue (EWC)

| Waste code          | Waste designation   |  |  |  |  |
|---------------------|---|--|--|--|--|
| 13 02 05*           | mineral-based non-chlorinated engine, gear and lubricating oils   |  |  |  |  |
| Packaging           |   |  |  |  |  |
| Methods of disposal | <ul> <li>The generation of waste should be avoided or minimized wherever possible. Waste<br/>packaging should be recycled. Incineration or landfill should only be considered<br/>when recycling is not feasible.</li> </ul>              |  |  |  |  |
| Special precautions | This material and its container must be disposed of in a safe way. Empty containers<br>or liners may retain some product residues. Avoid dispersal of spilled material and<br>runoff and contact with soil, waterways, drains and sewers. |  |  |  |  |
