SAFETY DATA SHEET

Q8 Strauss 32

| SECTION 1: Identific undertaking | ation of the substance/mixture and of the company/ |
|--|---|
| 1.1 Product identifier | |
| Product name | : Q8 Strauss 32 |
| Viscosity or Type | : ISO VG 32 |
| Material uses | : Lubricating oil for industrial systems |
| 1.2 Relevant identified uses Not applicable. | of the substance or mixture and uses advised against |
| 1.3 Details of the supplier of | the safety data sheet |
| Manufacturer / Distributor | : Kuwait Petroleum Companies in the Benelux Company Office: Brusselstraat 59, B-2018, Antwerp Contactaddress: Petroleumkaai 7, B-2020, Antwerp Tel. +32 3 247 38 11, Fax +32 3 216 03 42 |
| e-mail address of person responsible for this SDS | : SDSinfo@Q8.com, communication preferably in English only. |
| 1.4 Emergency telephone nu | Imber |
| Europe | : +44 (0) 1235 239 670 CARECHEM24 |
| Global (English only) | : +44 (0) 1865 407 333 |
| SECTION 2: Hazards | identification |
| 2.1 Classification of the subs | stance or mixture |
| Product definition | : Mixture |
| Classification according to | Regulation (EC) No. 1272/2008 [CLP/GHS] |
| The product is not classified Not classified. | as hazardous according to Regulation (EC) 1272/2008 as amended. |
| Ingredients of unknown toxicity | : None. |
| Ingredients of unknown ecotoxicity | : None. |
| Classification according to | |
| • | as dangerous according to Directive 1999/45/EC and its amendments. |
| Classification | : Not classified. |
| | t of the R phrases or H statements declared above. |
| See Section 11 for more deta | iled information on health effects and symptoms. |

| 2.2 Label elements | |
|--------------------------|---|
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| General | : Not applicable. |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| | |

Date of issue/Date of revision

1/13

Q8 Strauss 32

| Storage | 1 | Not applicable. | |
|---|----|---|--|
| Disposal | | Not applicable. | |
| Supplemental label elements | : | Safety data sheet available on request. | |
| Special packaging requirem | en | <u>ts</u> | |
| Containers to be fitted with child-resistant fastenings | : | Not applicable. | |
| Tactile warning of danger | : | Not applicable. | |
| 2.3 Other hazards | | | |
| Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII | : | Not applicable. | |
| Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII | : | Not applicable. | |
| Other hazards which do not result in classification | : | Defatting to the skin. Prolonged or repeated contact may dry skin and cause irritation. | |

SECTION 3: Composition/information on ingredients

| 3.2 Mixtures | : Mixture | | | | |
|---|---|-----------|-----------------|---|---------|
| | | | Clas | | |
| Product/ingredient name | Identifiers | % | 67/548/EEC | Regulation (EC) No. 1272/2008 [CLP] | Туре |
| Distillates (petroleum), solvent-dewaxed heavy paraffinic | REACH #: 01-2119471299-27 EC: 265-169-7 CAS: 64742-65-0 Index: 649-474-00-6 | ≥50 - <75 | Not classified. | Asp. Tox. 1, H304 | [1] [2] |
| Distillates (petroleum), solvent-dewaxed heavy paraffinic | REACH #: 01-2119471299-27 EC: 265-169-7 CAS: 64742-65-0 Index: 649-474-00-6 | ≥25 - <50 | Not classified. | Not classified. | [2] |
| | | | | See Section 16 for the full text of the H statements declared above. | |

The mineral oils in the product contain < 3% DMSO extract (IP 346).

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern

Occupational exposure limits, if available, are listed in Section 8.

Q8 Strauss 32

SECTION 4: First aid measures

| 4.1 Description of first aid n | 1easures |
|--------------------------------|---|
| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : Wash skin thoroughly with soap and water or use recognized skin cleanser. Remove contaminated clothing and shoes. Get medical attention if symptoms occur |
| Ingestion | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

4.2 Most important symptoms and effects, both acute and delayed

| Eye contact | : No known significant effects or critical hazards. |
|---------------------|--|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Defatting to the skin. May cause skin dryness and irritation. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs | /symptoms |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation dryness cracking |
| Ingestion | : No specific data. |

4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician | 1 | Treat symptomatically. Contact poison treatment specialist immediately if large |
|---------------------|---|---|
| | | quantities have been ingested or inhaled. |
| Specific treatments | 1 | No specific treatment. |

SECTION 5: Firefighting measures

| 5.1 Extinguishing media | |
|--|---|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , alcohol-resistant foam or water spray (fog). |
| Unsuitable extinguishing media | : Do not use water jet. |
| 5.2 Special hazards arising f | from the substance or mixture |
| Hazards from the substance or mixture | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides |

5.3 Advice for firefighters

Q8 Strauss 32

SECTION 5: Firefighting measures

| Special protective actions for fire-fighters | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
|---|---|---|
| Special protective equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | ptective equipment and emergency procedures |
|---------------------------------|--|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| 6.3 Methods and materials for | r containment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. |

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Q8 Strauss 32

SECTION 7: Handling and storage

7.3 Specific end use(s)

Recommendations Industrial sector specific solutions

: Not available. : Not available.

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

| Product/ingredient name | | Exposure limit values | |
|---|---|---|--|
| paraffinic | | Lijst Grenswaarden / Valeurs Limites (Belgium, 11/2011). TWA: 5 mg/m ³ 8 hours. Form: mist STEL: 10 mg/m ³ 15 minutes. Form: mist | |
| Distillates (petroleum), solver paraffinic | nt-dewaxed heavy | Lijst Grenswaarden / Valeurs Limites (Belgium, 11/2011). TWA: 5 mg/m ³ 8 hours. Form: mist STEL: 10 mg/m ³ 15 minutes. Form: mist | |
| Recommended monitoring procedures | atmosphere or b of the ventilation protective equip the following: E the assessment limit values and atmospheres - (of exposure to c (Workplace atm for the measure | ontains ingredients with exposure limits, personal, workplace biological monitoring may be required to determine the effectiveness in or other control measures and/or the necessity to use respiratory ment. Reference should be made to monitoring standards, such as uropean Standard EN 689 (Workplace atmospheres - Guidance for of exposure by inhalation to chemical agents for comparison with measurement strategy) European Standard EN 14042 (Workplace Guide for the application and use of procedures for the assessment chemical and biological agents) European Standard EN 482 nospheres - General requirements for the performance of procedures ment of chemical agents) Reference to national guidance methods for the determination of hazardous substances will also be | |
| DNELs/DMELs | · | | |
| No DNELs/DMELs available |). | | |
| PNECs | | | |
| No PNECs available. | | | |
| 3.2 Exposure controls | | | |
| Appropriate engineering controls | : Good general v contaminants. | rentilation should be sufficient to control worker exposure to airborne | |
| Individual protection measu | ires | | |
| Hygiene measures | before eating, s Appropriate teo Wash contamir | brearms and face thoroughly after handling chemical products, smoking and using the lavatory and at the end of the working period. Inhigues should be used to remove potentially contaminated clothing. Inated clothing before reusing. Ensure that eyewash stations and are close to the workstation location. | |
| Eye/face protection | assessment inc gases or dusts. | complying with an approved standard should be used when a risk dicates this is necessary to avoid exposure to liquid splashes, mists, If contact is possible, the following protection should be worn, essment indicates a higher degree of protection: safety glasses with | |
| Skin protection | | | |
| | | | |

Q8 Strauss 32

SECTION 8: Exposure controls/personal protection

| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Wear suitable gloves tested to EN374. Recommended: < 1 hour (breakthrough time): nitrile rubber 0.17 mm. |
|---------------------------------|---|
| Body protection | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: Boiling point > 65 °C: A1; Boiling point < 65 °C: AX1; Hot material: A1P2. |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| · · · · · · · · · · · · · · · · · · · | | |
|--|---|---|
| <u>Appearance</u> | | |
| Physical state | : | Liquid. [Oily liquid.] |
| Appearance | 1 | Clear. |
| Color | : | Yellow [Light] |
| Odor | : | Characteristic. |
| Odor threshold | : | Not available. |
| рН | : | 7 |
| Melting point/freezing point | : | <-12°C |
| Initial boiling point and boiling range | : | >300°C |
| Flash point | : | Open cup: >198°C [ASTM D92.] |
| Evaporation rate | : | Not available. |
| Flammability (solid, gas) | : | Not applicable. |
| Upper/lower flammability or explosive limits | : | Not available. |
| Vapor pressure | : | <0.01 kPa [room temperature] |
| Vapor density | : | Not available. |
| Relative density | : | 0.87 |
| Solubility(ies) | : | Insoluble in the following materials: cold water and hot water. |
| Partition coefficient: n-octanol/ water | : | Not available. |
| Auto-ignition temperature | : | >300°C |
| Decomposition temperature | : | >300°C |
| Viscosity (40°C) | : | 32 cSt |
| Viscosity (100°C) | : | 5.33 cSt |
| Explosive properties | : | Not applicable. |
| Oxidizing properties | : | Not applicable. |
| | | |

9.2 Other information

No additional information.

Q8 Strauss 32

SECTION 10: Stability and reactivity

| 10.1 Reactivity | : | No specific test data related to reactivity available for this product or its ingredients. |
|--|---|--|
| 10.2 Chemical stability | : | The product is stable. |
| 10.3 Possibility of hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur. |
| 10.4 Conditions to avoid | : | No specific data. |
| 10.5 Incompatible materials | : | Reactive or incompatible with the following materials: Strong oxidizing materials |
| 10.6 Hazardous decomposition products | : | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|---|---------------------------------|-----------------------|----------------------------|----------|
| Distillates (petroleum), solvent-dewaxed heavy paraffinic | LC50 Inhalation Dusts and mists | Rat - Male, Female | 5.53 mg/l | 4 hours |
| | LD50 Dermal LD50 Oral | Rabbit Rat | >5000 mg/kg >5000 mg/kg | - |
| Distillates (petroleum), solvent-dewaxed heavy paraffinic | LC50 Inhalation Dusts and mists | Rat - Male, Female | 5.53 mg/l | 4 hours |

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product

Q8 Strauss 32

SECTION 13: Disposal considerations

| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
|------------------------|--|
| Hazardous waste | : Yes. |
| European waste catalog | gue (EWC) |

| Waste code | Waste designation |
|---------------------|---|
| 13 02 05* | mineral-based non-chlorinated engine, gear and lubricating oils |
| Packaging | |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

SECTION 14: Transport information
