

Q8 Ruysdael SG

Application

- Special grease for applications in a humid and corrosive environment.
- Because of the heavy base oil, this grease is not to be recommended for higher speeds because the internal friction within the lubricant film can cause an undesirable temperature increase.

Specifications

- DIN 51502 classification: KP2.5K-20
- ISO 6743 classification: ISO-L-XBCHB2.5

Benefits

- Extremely good water resistance
- Long service life
- Enhanced rust protection
- Excellent load carrying capacity
- Good oxidation stability
- Can be used for a wide temperature range -20°C to +130°C
