

## ANTYKOL 100 S

### GENERAL FEATURES:

Antykol 100 S protection and engine oil is manufactured basing on highly refined oil distillate and a set of enriching additives with antioxidative, anticorrosive and foaming inhibiting properties and properties reducing the oil ability to release deposits.

### APPLICATION:

Antykol 100 S protective and engine oil is used for corrosion protection of internal surfaces of combustion engines, air compressors, engine pumps.  
In motor vehicles it is also used as engine oil with the interchange period up to 2 thousand kilometres.

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity at 40°C	mm <sup>2</sup> /s	104
Viscosity index	-	106
Flow temperature	°C	-26

#### NOTE:

Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
