

## FORMEX Q

### GENERAL FEATURES:

Forme Q oil is manufactured basing on deep refined mineral oils with the additive inhibiting concrete adhesion to moulds and corrosion inhibitors.

### APPLICATION:

Formex Q is intended to lubricate steel moulds in manufacturing of concrete and ferroconcrete precast units and for steel and wooden shuttering in civil engineering.

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity at 20°C	mm <sup>2</sup> /s	24
Ignition temperature	°C	92
Sponification number	mg KOH/g	7.3

### NOTE:

Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
