

## FRIGOL M 68

### GENERAL FEATURES:

Frigol M 68 Refrigeration Compressor Oils are obtained from a selection of highly refined mineral base oils. They are characterized by a low flow temperature, good thermal stability and anti-wear protection.

### APPLICATION:

Frigol M 68 Oils are intended for lubricating all refrigeration compressors operating with CFC coolants (e.g. R12), HCFC coolants (e.g. R22) and ammonia.

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity at 40°C	mm <sup>2</sup> /s	66,4
Flash point	°C	200
Flow temperature	°C	-39
Corrosive action on copper plates at 100°C after 3h	Corrosion level	1

**NOTE:**  
Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
