

PLATINUM RIDER SCOOTER 2T

Quality class: API: TC
JASO: FD
ISO-L-EGD

GENERAL FEATURES:

Semi-synthetic oil designed for two-stroke scooters for city driving or high-performance on the open road. The HTS (High Temperature Stability) formula provides effective lubrication even at high temperatures. The oil prevents burning and wear of piston rings and pistons as well as protects against deposits on the spark plug. It meets the highest quality specification of JASO (Japanese Automotive Standards Organization) and has the reliability guarantee of the motorcycle "ORLEN TEAM".

Dosage: in accordance with engine manufacturer's recommendations, 2% oil to fuel ratio /1:50/ if the engine manufacturer does not recommend otherwise.

APPLICATION:

Designed for lubrication of two-stroke engines in motorcycles, mopeds and scooters, as well as snowmobiles and quads. Suitable for mixing or individual lubrication.

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity at 100°C	mm ² /s	8,5
Viscosity index	-	125
Pour point	°C	-21
Flash point	°C	75

NOTE:

Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
