

CORALIA L-DAB 68

Viscosity grad: ISO VG: 68

GENERAL FEATURES:

CORALIA L-DAB Piston Air Compressor Oils are obtained through petroleum processing. They contain ash-free or low-ash additives with anti-oxidation and anti-corrosion properties.

APPLICATION:

CORALIA L-DAB Air Compressor Oils are intended for lubricating piston and rotary vane air compressors demanding drip-feed lubrication and operating under medium-duty conditions. For the assessment of operating conditions (light-duty, medium-duty and heavy-duty), the following should be considered:

- compressor design (stages, cooling type),
- environment conditions (coolant temperature, inlet air temperature),
- operating conditions (continuous or intermittent operation).

STANDARDS, APPROVALS. SPECIFICATION:

PN-91/C-96073

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity at 40°C	mm ² /s	65,2
Viscosity index	-	95
Flow temperature	°C	-14
Flash point	°C	240
Ash content	%(m/m)	0,01

NOTE:

Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
