

PLATINUM MOTO 2T

Quality class: API: TC
JASO: FD
ISO-L-EGD

GENERAL FEATURES:

Semisynthetic oil intended for two-stroke engines distinguished by excellent properties. It guarantees:

- perfect wear protection,
- very good mixing with fuel,
- strong anticorrosive properties

APPLICATION:

Platinum Moto 2T is a synthetic oil for two-stroke engines, it can be used for both in-mixture and separate lubricating.

It is intended for:

- cars with two-stroke engines,
- motorcycles with two-stroke engine,
- engines of chain and circular saws,
- mowers,
- two-stroke engine gardening equipment of any type

Dosage: As recommended by the engine manufacturer.

2% of the fuel volume /1:50/ unless otherwise recommended by the engine manufacturer.

PARAMETERS	UNIT	TYPICAL VALUES
Kinematic viscosity 100°C	mm ² /s	8.1
Flow temperature	°C	-28
Ignition temperature	°C	81
Sulphate ash	%	0.07
Content of solid foreign bodies	%	no content
Water content	% (V/V)	no content

NOTE:

Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
