

## PLATINUM RIDER SPORT 4T 10W-50

**Quality class:** API: SN/SM  
JASO MA-2  
**Viscosity grad:** SAE: 10W-50

### GENERAL FEATURES:

Fully synthetic oil for sports motorcycle engines. The latest generation HTS (High Temperature Stability) technology provides effective lubrication even under extreme conditions (on the track and on the road). Optimal composition of the oil provides maximum protection of all mechanical components vulnerable to wear as well as low consumption and maximum engine protection. It meets the strictest limitations regarding toxic compounds in the exhaust gases emitted to the environment, applicable under the Euro standard for motorcycles. It meets the highest quality specification of JASO (Japanese Automotive Standards Organization) and has the reliability guarantee of the motorcycle "ORLEN TEAM".

### APPLICATION:

Designed for lubrication of four-stroke motorcycle engines, as well as motorcycle and wet clutch transmissions used in professional sports.

PARAMETERS	UNIT	TYPICAL VALUES
SAE viscosity class	-	10W-50
Kinematic viscosity at 100°C	mm <sup>2</sup> /s	16,9
Viscosity index	-	150
Pour point	°C	-30
Flash point	°C	200

**NOTE:**  
Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
