# SAFETY DATA SHEET

Q8 Rossini G 150

| SECTION 1: Identific undertaking                  | ation of the substance/mixture and of the company/  |  |  |  |
|---|---|--|--|--|
| 1.1 Product identifier                            |   |  |  |  |
| Product name                                      | : Q8 Rossini G 150  |  |  |  |
| Viscosity or Type                                 | : ISO VG 150  |  |  |  |
| Material uses                                     | : Lubricating oil for food industry   |  |  |  |
| 1.2 Relevant identified uses                      | of the substance or mixture and uses advised against  |  |  |  |
| Not applicable.                                   |   |  |  |  |
| 1.3 Details of the supplier of                    | f the safety data sheet   |  |  |  |
| Manufacturer / Distributor                        | : Kuwait Petroleum Companies in the Benelux<br>Company Office: Brusselstraat 59, B-2018, Antwerp<br>Contactaddress: Petroleumkaai 7, B-2020, Antwerp<br>Tel. +32 3 247 38 11, Fax +32 3 216 03 42 |  |  |  |
| e-mail address of person responsible for this SDS | : SDSinfo@Q8.com, communication preferably in English only.   |  |  |  |
| 1.4 Emergency telephone nu                        | umber   |  |  |  |
| Europe  | : +44 (0) 1235 239 670 CARECHEM24   |  |  |  |
| Global (English only)                             | : +44 (0) 1865 407 333  |  |  |  |
| SECTION 2: Hazards                                | sidentification   |  |  |  |
| 2.1 Classification of the sub                     | stance or mixture   |  |  |  |
| Product definition                                | : Mixture   |  |  |  |
| Classification according to                       | Regulation (EC) No. 1272/2008 [CLP/GHS]   |  |  |  |
| The product is not classified Not classified.     | as hazardous according to Regulation (EC) 1272/2008 as amended.   |  |  |  |
| Ingredients of unknown toxicity                   | : None.   |  |  |  |
| Ingredients of unknown                            | : None.   |  |  |  |

ecotoxicity

Classification according to Directive 1999/45/EC [DPD]

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments. **Classification** : Not classified.

See Section 16 for the full text of the R phrases or H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements       |   |
|--------------------------|---|
| Signal word              | : No signal word.                                   |
| Hazard statements        | : No known significant effects or critical hazards. |
| Precautionary statements |   |
| General                  | : Not applicable.                                   |
| Prevention               | : Not applicable.                                   |
| Response                 | : Not applicable.                                   |
|                          |   |

Date of issue/Date of revision

Q8 Rossini G 150

| Storage   | : Not applicable.                         |
|---|---|
| Disposal  | : Not applicable.                         |
| Supplemental label<br>elements  | : Safety data sheet available on request. |
| Special packaging requirem  | ients                                     |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.                         |
| Tactile warning of danger   | : Not applicable.                         |
| 2.3 Other hazards   |   |
| Substance meets the<br>criteria for PBT according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | : Not applicable.                         |
| Substance meets the<br>criteria for vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII | : Not applicable.                         |
| Other hazards which do not result in classification   | : None known.                             |

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

### : Mixture

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

## **SECTION 4: First aid measures**

| 4.1 Description of first aid n | neasures  |
|--------------------------------|---|
| Eye contact                    | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.  |
| Inhalation                     | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.  |
| Skin contact                   | : Wash contaminated skin with soap and water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Accidental high pressure injection through the skin requires immediate medical attention.  |
| Ingestion                      | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training.  |
| 4.2 Most important symptor     | ns and effects, both acute and delayed  |
| Potential acute health effe    | <u>cts</u>  |
| Eye contact                    | : No known significant effects or critical hazards.   |
| Inhalation                     | : No known significant effects or critical hazards.   |
| Skin contact                   | : No known significant effects or critical hazards.   |
| Ingestion                      | : No known significant effects or critical hazards.   |
| Over-exposure signs/sym        | otoms   |
| Eye contact                    | : No specific data.   |
| Date of issue/Date of revision | : 13-01-2015 Date of previous issue : No previous validation Version : 1 2/11   |

Q8 Rossini G 150

| Inhalation                            | : No specific data.   |
|---------------------------------------|---|
| Skin contact                          | : No specific data.   |
| Ingestion                             | : No specific data.   |
| the maloution of any mini             | ediate medical attention and special treatment needed                             |
| Notes to physician                    | : Treat symptomatically. Contact poison treatment specialist immediately if large |
| · · · · · · · · · · · · · · · · · · · |   |

| 0   |     | 5   |
|---|-----|---|
| 5.1 Extinguishing media                           |     |   |
| Suitable extinguishing media                      | :   | Use dry chemical, CO <sub>2</sub> , alcohol-resistant foam or water spray (fog).  |
| Unsuitable extinguishing media                    | :   | Do not use water jet.   |
| 5.2 Special hazards arising f                     | ron | n the substance or mixture  |
| Hazards from the substance or mixture             | :   | In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products          | :   | No specific data.   |
| 5.3 Advice for firefighters                       |     |   |
| Special protective actions for fire-fighters      | :   | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | :   | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |
|   |     |   |

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro  | ote | ctive equipment and emergency procedures  |
|--------------------------------|-----|---|
| For non-emergency<br>personnel | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate<br>personal protective equipment.            |
| For emergency responders       | :   | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions  | :   | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| 6.3 Methods and materials fo   | r c | ontainment and cleaning up  |
| Small spill                    | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |

Q8 Rossini G 150

## **SECTION 6: Accidental release measures**

| Large spill                     | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
|---------------------------------|--|
| 6.4 Reference to other sections | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## 7.3 Specific end use(s)

Recommendations Industrial sector spec : Not available.

Industrial sector specific solutions

: Not available.

# **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1 Control parameters

### **Occupational exposure limits**

No exposure limit value known.

Recommended monitoring procedures If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

No DNELs/DMELs available.

Q8 Rossini G 150

## **SECTION 8: Exposure controls/personal protection**

#### **PNECs**

No PNECs available.

| 8.2 Exposure controls            |   |    |  |
|----------------------------------|---|----|--|
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborr contaminants.   | ıe |  |
| Individual protection measures   |   |    |  |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period<br>Appropriate techniques should be used to remove potentially contaminated clothir<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location.          |    |  |
| Eye/face protection              | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses wit side-shields.   | S, |  |
| Skin protection                  |   |    |  |
| Hand protection                  | : Chemical-resistant, impervious gloves complying with an approved standard shou be worn at all times when handling chemical products if a risk assessment indicat this is necessary. Wear suitable gloves tested to EN374. Recommended: < 1 hour (breakthrough time): nitrile rubber 0.17 mm.  |    |  |
| Body protection                  | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |    |  |
| Other skin protection            | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |    |  |
| Respiratory protection           | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the produ and the safe working limits of the selected respirator. Recommended: Boiling point > 65 °C: A1; Boiling point < 65 °C: AX1; Hot material: A1P2. | ct |  |
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |    |  |

## **SECTION 9: Physical and chemical properties**

| 9.1 Information on basic physic            | cal and chemical properties   |
|--|---|
| Appearance                                 |   |
| Physical state                             | : Liquid. [Oily liquid.]  |
| Appearance                                 | : Clear.  |
| Color                                      | : Colorless to light yellow.  |
| Odor                                       | : Mild.   |
| Odor threshold                             | : Not available.  |
| рН   | : 7   |
| Melting point/freezing point               | : <-40°C  |
| Initial boiling point and<br>boiling range | : >300°C  |
| Flash point                                | : Open cup: >250°C [ASTM D92.]  |
| Evaporation rate                           | : Not available.  |
| Flammability (solid, gas)                  | : Not applicable.   |
| Date of issue/Date of revision             | : 13-01-2015 Date of previous issue : No previous validation Version : 1 5/11 |

## CTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

#### **Product**

| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
|---------------------|--|
|---------------------|--|

#### **Hazardous waste** : Yes.

#### European waste catalogue (EWC)

| Waste code          | Waste designation   |  |
|---------------------|---|--|
| 13 08 99*           | wastes not otherwise specified  |  |
| Packaging           |   |  |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.                                    |  |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |  |
